My name is Sam. _____

I'm a student located in _____

_____ somewhere, some state .

I'm in select grade .

I have completed the summer assignment _____

(Student signature)

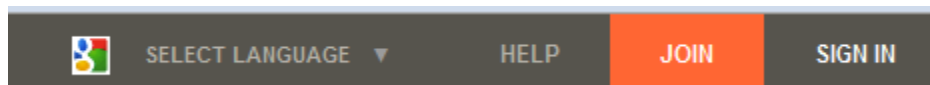

WAVE Summer Math Practice for Incoming Algebra students

What is ck12? ck12 is a free on-line source of instructional videos and practice. It starts with basic addition and goes up to college level math instruction. It also provides teachers with free tracking software to monitor student progress.

How can we use this resource?

The WAVE Summer Math Assignment requires that students have an e mail account in order to access the on-line math materials. Set up a gmail account as instructed below in step 1.

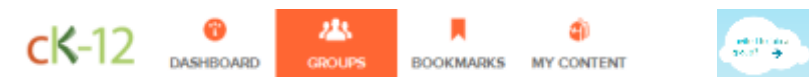

- 1) **To set up a gmail account**, go to <http://mail.google.com/mail/help/open.html> and follow the instructions.
 - a. Parents, create the account yourself --for your child -- using **your** data (*birthday, primary email etc.*)
 - b. We suggest that you do not use your son/daughter's full name in the account name. Avoid a "fun" account name like fluffybunny@gmail.com. Suggestion: **First initial_lastname**(possibly with numbers following) **For example: s_goodin13@gmail.com OR s_goodin_wave.gmail.com** . This will assist teachers in recognizing communication with their students.
 - c. Make sure you write down your gmail address on the first page of this packet.
 - d. Once the school year starts, your child will be assigned a district e-mail address they will use for the remainder of their time in CCISD.
- 2) Navigate to www.ck12.org and **join** to create an account with your gmail. **Only** use your first name. (The school has to have parental consent to show your full name on this website)

- 3) Select your role (student). Make sure to write the name ck12 gives you on the last sheet of this packet.

- 4) Select Groups and then select Invited to join a group. Enter the group code: t56mv

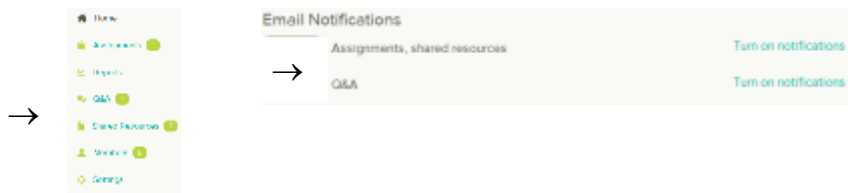

- 5) Select Assignments. Select the topic you want to work on. Select Start. **Assignment Names are subject to change.** You must complete all topics under the assignments. If you are having problems with the assignment, watch the instructional video links.

6) **Assignments will NOT be posted until June 5th.**

7) Select Settings and turn **OFF** email notifications.

8) Please **DO NOT** post anything in the Q & A.

FAQ:

Is this assignment required? Yes, a grade will be taken the first week of school based on the progress of the assignments on ck12.

What if I don't have a computer or Internet access? Public libraries often have free computer and Internet access available to the community. If you have a computer without access, many fast food restaurants and coffee shops offer free wi-fi.

What is a reasonable goal for the summer? Students should be proficient in the skills listed on ck12 before they enter Algebra. *Students will be tested on these skills during the first couple of weeks of school. Students who are not proficient will be recommended to drop Algebra and take 8th Grade WAVE mathematics.*

What documentation is required? Student progress is automatically tracked. We will ask for your child to turn in the summer math assignment information sheet on the first day of school.

What if I need additional help? khanacademy.org is a free online resource you can use for instructional videos and practice.

What if I have additional questions? Please email Mrs. Goodin at sgoodin@ccisd.net. Response email time may be longer than 24-48 hrs. due to summer schedule.
